

DR. OSCAR ROBERT ECHANDÍ
COSTA RICA

Licentiate in Veterinary Medicine graduated from the National University of Costa Rica. He has been a breeder since 1983 and to date, he has risen over 25 breeds, among them: shar-pei, beagle, german shepherd, dachshund, golden retriever, etc. He has also obtained several national and international championships for many of his dogs. Moreover, four of them have received the Dog of the Year Award in Costa Rica. Likewise, he has accomplished important titles as a handler, both in national and international competitions.

Currently, he is an active member of the Asociación Canófila Costarricense -since 1990- and he has been designated for several positions in its Board of the Directors, as well as in various committees. Nowadays, he represents Costa Rica at the SICALAM Technical and Standards Committee.

On the other hand, he is an active veterinarian at the Dr. Robert Veterinary Hospital. He takes care of his breeding place, namely 'Criadero Teriyaki' and also spends much of his time teaching at the Veterinary Medicine School of the National University and directs educational and preventive programs in favor of the animals, which also air on national television.
